SMARTCARE PROFESSIONAL LAUNDRY SOLUTIONS

Laundry Cost & Performance Overview

Delivering exceptional linen care across hotels, hospitals, and industries requires powerful cleaning, strict hygiene, fabric protection, & sustainability, **SmartCare** products combine eco-friendly formulations, premium performance, and affordable cost to meet the highest standards without compromising the environment or your budget.

SmartCare's Detergents and sanitizers drive the majority of cleaning performance in commercial laundries, with pretreatment products, fabric conditioners, and performance boosters enhancing stain removal, fabric care, and overall efficiency. All SmartCare products are designed to deliver maximum cleaning impact with minimal environmental footprint and cost-effective usage patterns.

Explore Our Solutions

Next, discover our full suite of SmartCare products – each tailored for specific laundry challenges, from everyday soils to tough industrial stains – combining efficiency, reliability, and sustainability for every facility's laundry needs..

LAUNDRY PRODUCTS

5L - 20L

Blood-Off H94

PRE SPOTTER, SLUICING & BLEACH

Target Use: Elimination of biological contaminants and protein-based residues.

Specifications: Eco-friendly bleach & disinfectant for colored and white linen, removing stains and germs while remaining fabric-safe. Disinfects 99% of germs.

Application: Utilized during pre-wash or sluicing stages to dissolve organic matter while ensuring hygienic fabric treatment.

1 L

INK GO Stain Remover

Target Use: Treatment of ink, dye, and pigment contamination.

Specifications: Environmentally safe pre-spotter for ink stains, fast-acting and safe, lifting stains without harming fabric.

Application: Directly applied to affected areas to loosen pigments prior to laundering without compromising material integrity.

1L

RUST-OFF Stain Remover Pre-Spotter HK900

Target Use: Correction of oxidation-related discoloration on textiles.

Specifications: Fast-acting rust pre-treatment for dry fabrics, safely eliminating stains while maintaining fabric strength and quality.

Application: Administered onto dry fabric surfaces to neutralize rust deposits before standard washing procedures.

LAUNDRY PRODUCTS

5Kg - 20Kg Rampsen 3 in 1

SPECIALIZED HOSPITAL LAUNDRY AUTO WASH POWDER WITH OXYGEN BLEACH, BOOSTER & ENZYMES

Target Use: Integrated cleansing, oxidation, and enzymatic stain breakdown.

Specifications: Powerful washing powder delivers stain removal, color retention, disinfection, eco-friendly.

Application: Dispensed in automated systems to deliver simultaneous soil removal, sanitization, and fabric-safe bleaching.

5L - 20L

LUX Smart Soft Fabric Softener & Conditioner

Target Use: Textile conditioning with enhanced softness and fragrance retention.

Specifications: Eco-friendly fabric softener with premium agents, soft touch, anti-static protection, resilience, reduced wear, lasting scent.

Application: Introduced during final rinse to improve tactile quality, reduce static charge, and maintain fabric freshness.

5L - 20L Rampsen 2 in 1

Target Use: Dual-action formulation for soil removal & wash enhancement.

Specifications: Advanced enzyme-based powder for efficient stain removal, color protection, fabric care, disinfection, and eco-friendly performance.

Application: Incorporated into wash cycles to support detergent activity and improve overall laundering efficiency.

LAUNDRY PRODUCTS

5Kg -20Kg RAMPSEN RECOVERY 990

(BRIGHTENER FOR WHITES)

Target Use: Revitalization of faded or dull white textiles.

Specifications: Specialized powder for restoring white linen; soak only, effectively returning cream-colored fabrics to bright, pristine white.

Application: Added to laundering stages to enhance brightness and restore original fabric appearance effectively.

1L RAMPSEN LAUNDRY DEGREASER K500

Target Use: Breakdown of industrial oils and grease contamination.

Specifications: Industrial pre-spotter removes grease, glue & soils while eco-friendly softeners protect fabric texture & reduce static.

Application: Applied during pre-treatment or wash to dissolve heavy residues and ensure complete fabric cleansing.

5L, 20L & 200L RAMPSEN LINEN

BLEACH H200

HIGH PERFORMANCE

Target Use: Designed for powerful whitening and stain removal across commercial and household linen applications.

Specifications: High-performance linen bleach to eliminate tough stains, disinfect fabrics, and restore brightness.

Application: Added during the wash cycle to enhance stain breakdown, ensure hygienic results, and maintain consistent linen quality across all loads.

LAUNDRY PRODUCTS

5Kg - 20Kg RAMPSEN PREMIUM AUTOWASH POWDER

Target Use: Intensive cleansing of high-load & heavily soiled fabrics.

Specifications: Effective enzyme-powered detergent for colored linen, gently removing protein stains while protecting fabrics & minimizing environmental impact.

Application: Applied in machine washing to penetrate deep-set grime, ensuring thorough purification of textiles.

5L - 20L RAMPSEN LAUNDRY BOOSTER

Target Use: Performance amplification under demanding washing conditions.

Specifications: Liquid laundry enhancer that brightens, removes stains, softens fabrics, reduces static, and leaves a lasting fresh scent.

Application: Combined with primary detergents to strengthen cleaning action, particularly in mineral-rich water environments.
